'Star launches the *Free Sprite* collection for the woman who listens to her heart, breaks all moulds and forges her own path to happiness and fulfilment. Every step she takes is uninhibited and spontaneous.

Our collection pays homage to this woman; the asymmetrical designs denote her journey in life – brilliant, original, out of the ordinary and yet balanced. The interplay of metal and diamonds creates an illusion of larger than life brilliance, indicating that every step she takes is bigger and brighter.

These breathtaking jewels are crafted in 18-karat white, yellow and pink gold and studded with round and fancy shaped diamonds. Take your pick from a range of unique earrings, pendants, rings and necklaces. ■
