

DIAMOND FANTASY

Asian Star, a luxury jewellery brand in Mumbai, recently hosted its annual ritual feast of jewellery Rendezvous Luxe for Mumbai's elite at the Trident hotel.

The fourth edition of the couture diamond jewellery extravaganza showcased an assortment of beautifully crafted collections inspired by the theme 'Enchanted'.

The jewellery collections were an exquisite reflection of nature's beauty. Organic shapes and motifs were creatively styled into masterpieces that were majestic and at the same time captivating.

On display was an arresting diamond necklace with abstract rose patterns created with crescent shapes; a full-finger ring created with twisted gold stems featured buds and blossoms in fancy-cut diamonds; openwork rose earrings were articulated with diamond-accented petals; and the lotus motif recurred in many a splendid form in tasselled pearl and diamond earrings, leafy diamond and emerald dangles, or lotus buds set with pearls and gold petals encircled various bangles.

In keeping with the theme, the interior's ambience with mystical lighting and displays made for a perfect setting.
