 Gold Wt.: 3.73 gms  
 Dia. Wt.: 0.79 cts.

A'Star Jewellery is all set to stir up a more exciting time at IJJS Signature 2020 with the launch of five vivid jewellery collections.

Using colour and form to help set a mood, emotion and expressiveness have been imbued in each design such that the jewellery speaks for itself. The versatile use of brilliant diamonds is the perfect foil to this eloquence; be it a hint of coloured enamel adding Moroccan charm or a playful spread of glittering diamonds emulating a starburst or the play of matte and glossy surfaces replicating sun-kissed sand or ombre highlights using pink and blue gemstones or diamond clusters conveying luxurious lace motifs, every design is an expression in itself.

Available in 18kt white, yellow and pink gold, these rings, earrings and pendants are an articulation of beauty and add a delightful touch to the wearer's attire.
