

A' STAR JEWELLERY

Gold Wt: 4.12 gms
Diamond Ct: 1.85 cts

A'Star Jewellery presents "Amour", a collection of ornamental engagement rings that are inspired by the classic Halo ring. Understanding that the woman wears her engagement ring everyday for the next 50 years, we believe the ring should reflect her style and personality in addition to symbolising love. The individualistic styles encompass everything from intricate vintage-inspired designs to halos with floral accents to geometric iridescent halos. Set in 18kt white, yellow and pink gold, the central solitaire diamond depicts true promise of eternal love. Find the ideal engagement ring for that special someone that not only reflects your love but also her persona.
