

A'STAR JEWELLERY

A'Star Jewellery's new collections are an artistic interpretation of latest trends right off the runways of Milan, Paris and London.

Inspired by styles #TRENDINGNOW from dramatic fringes to mixed checks n stripes layering to striking geometric shapes and racy cut-out patterns, the exotic jewellery designs ingeniously integrate every nuance from print to silhouette with the harmonious play of metal and diamonds.

Various techniques such as advanced CAD for 3D forms and cut-outs, texturing, beading, layering of materials, and play of matt and gloss surfaces have been used to craft these jewels that are a beautiful metamorphosis of fashion trends into fashion-forward jewellery.

Crafted from 18k pink, white and yellow gold, and studded with round and baguette diamonds, the distinctive jewellery is a perfect fit for the avant-garde woman with a sense of adventure and penchant for bold and edgy accessories.
